3 STEPS TO ORAL EXAM SUCCESS

This comprehensive course addresses every skill that is required on the Psychiatry Oral Board Exam – from the live patient interview and case presentation to the examiners, to the written and video vignettes. All you have to do is follow the steps, including studying the materials and participating in the practice sessions, and you can be confident of your success.

STEP 1: FAST TRACK HOME STUDY MATERIALS

The first part of the Beat the Boards!® course is the home study component, which includes CDs, DVDs and written manuals. These materials will be sent to you immediately, so you can begin studying and master the concepts even before you attend the live course.

- **11 Audio CDs** — step-by-step instructions tell you exactly what to do on the patient interview and presentation to the examiners as well as the written and video vignettes.
- **4 DVDs** — featuring three Live Patient Interview Mock Exams, each of which includes a candidate interviewing a real patient, presenting to an examiner, and then receiving detailed feedback. There is an additional DVD of a patient interviewed a second time by another candidate, so you can see how different psychiatrists obtain different data from the same patient.
- **3 DVDs** — featuring three different Vignette Mock Exams. On each, a candidate is examined on three written vignettes and one video vignette.
- **3 DVDs** — featuring three Model Oral Board Interviews with Presentations. After each board-style interview is conducted, the case is reviewed in detail with a performance critique.
- **7 Manuals** — over 300 pages of step-by-step instructions covering every conceivable aspect of the exam performance. (These are the transcripts of the audio CDs with additional study materials included.)

STEP 2: BOOT CAMP DAY

This highly interactive skill-building day is spent practicing the most challenging exam skills under the direct supervision of our expert faculty. Some of the skills you will master include:

- **Therapeutic Engagement**
Learn how to engage patients therapeutically — even defiant, disorganized or mute ones. This is the most important skill to master.
- **Psychological Understanding**
Learn to understand the myriad aspects of a patient's psychological function as well as how to justify the most sensible psychotherapy for the patient.
- **Interview Mapping**
Learn to maintain a disciplined, well-paced 30-minute interview that is structured according to our mapping system. So you take notes that actually guide your interview and presentation, helping you to keep on time and avoid missing important informational areas.
- **Presentation System**
Learn how to organize your case presentation, formulation (two different formats), differential diagnosis and management plan according to rule-based systems that virtually guide you into the correct presentation approach.
- **Video Observation & Presentation**
Learn the most common mistakes to avoid in the video clip observation and learn the system that permits you to anticipate each of the examiner's questions.
- **Vignette Analysis & Presentation**
Learn how to analyze the vignette as you read it and extract all the pertinent details, anticipate examiner questions, and also learn the little tricks the vignette writers use to trip up unsuspecting candidates.
- **Hypnosis**
You may also participate in our Hypnotic Performance Optimization Exercises to minimize your anxiety and help you perform to your highest ability.

STEP 3: THREE MOCK EXAM DAYS

On the day after the Boot Camp Day, you'll begin 3 additional days of realistic mock-exam training under the guidance of our expert faculty.

- Gain exposure to an average of 36 written vignettes, 12 board-style video clips and 12 different patient interviews.
- Receive one 75 minute Patient Interview Mock Exam, with oral and written feedback provided.
- Receive one 75 minute Vignette Exam in the new ABPN Format.

HOME STUDY OPTION

We understand how busy your life is. That's why we also offer a Home Study version of our Beat the Boards!® Psychiatry Part 2 Exam Prep Course. So if you don't have time to attend the live course you can still receive the help you need to pass your exam. This Home Study Course makes preparing as easy as:

1. **Listening to CDs in your car or on your iPod:** 11 CDs in all.
2. **Watching DVDs on your computer or TV:** 10 DVDs cover every aspect of exam performance.
3. **Reading written reference materials:** 7 manuals include transcripts from the CDs plus additional material for further study.
